

Medi-Cal Managed Care
is coming to Mendocino
County

July 1
2011

Your Medi-Cal
benefits
won't change

With managed care,
you must
choose one
primary care provider
(health center).

1

PHC will send you a letter

The State of California
and Partnership
HealthPlan of California
(PHC) will send a letter
explaining the change
to managed care.

Partnership HealthPlan's job is to make sure
you have a primary
care provider
ALL THE TIME, and access to
specialty care
WHEN NEEDED.

In the letter

from Partnership HealthPlan of California

there's a form

for you **to select your**

primary care provider **(health center).**

If you do not select a
primary care provider **(health center),**

PHC will assign one to you.

If you wait for Partnership HealthPlan
of California to choose a
provider for you,

There could be an interruption
IN YOUR MEDICAL CARE WITH US.

We're here to help.

We'll walk you
through the
whole form.

Our primary goal
is for you to continue to get
the quality health care
you expect—and deserve—from
Mendocino Community Health Clinic.

The bottom line...

1. Your benefits will remain the same.
2. Partnership HealthPlan will send you a form and a list of primary care providers to choose from.
3. To choose our clinic as your primary care provider, write MCHC on the form.
4. For help, simply call us or bring the form to the health center and we'll complete the form with you.
